USB FLASH DRIVE ENIGMA

ENIGMA is a real breakthrough in the world of USB Flash Drive. This is the first USB Flash Drive with 192 Gb memory. It is due to the outstanding shape of the case which is capable to hold 3 flash cards, each of 64 Gb.

ENIGMA collection is executed of 200-year-old African Blackwood and plenty of fancy diamonds embraced in 18K yellow or white gold.

The collection includes two lines - **Constellation** and **Labyrinth**.

Every model is furnished with natural caoutchouc strap, which turns a USB Flash Drive ENIGMA from a high-tech device into a jewellery pendant.

Limited edition of 99 pieces.

Price is 5000 Euro.
