

GRESSO

## Gresso Lady Diamond. A Limited Edition of 8 Pieces.

**Not just a collection, Lady Diamond is an ode to femininity, to elegance and to beauty. The peculiarity of the model is a magnificent case of brilliant red color.**

The case of the phone is executed of **titanium** which has been used originally in space industry only. It is known as a metal, which combines hardness and immutability with extreme lightness. A «know-how» of Gresso - **the case is covered with high-tech ceramic** of Magenta Diamond color. This color was developed exclusively for this limited-edition collection. Diamond sparkles in the covering add a magnificent shine and radiance to the case.

And because luxury is always a matter of detail, the **navigation keys are made of gold and crowned with 4 white diamonds** totalling 0,44K. The functional keys are executed of 18K gold with the application of ultra-precision turning technology. This technology ensures the superexcellent precision and impeccable shape of each detail. The front panel of the case is decorated with a gold triangle - a special feature of all Gresso phones.

A breathtaking design of the Lady Diamond collection is inspired by complicated swiss skeleton watches. The open back is executed of sapphire crystal, which will allow the customers to admire the inner mechanism of the device. The screen of the phone is enframed by hand-polished 42K sapphire glass.

Roman numerals on the keyboard are an innovation by Gresso. The battery cover with the magnetic lock is executed of stainless steel and decorated with genuine leather. The name of the collection and individual number of the phone are laser-engraved on the metal plate under the battery cover.

The gadget is provided with Windows Mobile 6 Standard, 2 Gb memory, SMS/MMS/e-mail, Internet Explorer, Outlook, WAP 2.0, GPRS, Bluetooth, mini-USB, PC Synchronization, voice recorder, MP3-player, 2MP camera.

**The collection release date is 5 March, 2009. Price – 5500 USD.**
